

Guest Seminar Announcement

Development, Zoning, and Ecosystem Change

An application of coupled ecological-economic modeling in Vilas County (Wisconsin)

Dr. Van Butsic

Van Butsic is an Alexander von Humboldt Fellow and will join the Geomatics Lab in December 2012. His research focuses on using coupled economic-ecological models to assess the effects of land use policy on the environment.

Tuesday, November 15th 2011, 17:00 (ct)
Room Uckermark 2'108
