

Geographisches Kolloquium

Wintersemester 2018/2019

Di, 13.11.2018

Prof David Lambert

University College London,
Inst. of Education

The Anthropocene, Freedom, Geography and Education

Prof David Lambert is interested in the purpose of geography in schools. But especially in *this day and age* - does it even have a role? His argument is that it does - as part of a "critical new role for education that will help rewrite the history of the future, or at least prepare us to encounter it with poise and equanimity."

(Hicks D. (2017). Why we still need a geography of hope. *Geography*, 103(2), p.84)
